RE: Post-April 22, 2026, Services/Goods Supply to Gregory Power Station (the “Gregory Plant”)

Dear Valued Supplier,

Calpine LLC (“Calpine”) has divested its minority ownership in Gregory Power Partner LLC (“GPP”) which owns the Gregory Plant to Cheniere Energy, Inc. (“Cheniere”). And while Calpine Operating Services Company, Inc. (“COSCI”) will continue to operate the Gregory Plant through April 21, 2026, it is of the utmost importance that your company is fully onboarded with Cheniere to ensure a smooth transition from **Calpine and GPP to Cheniere and GPP**.

Cheniere has issued a supplier onboarding communication to all Calpine suppliers that provide goods and/or services to the Gregory Plant. Please review that communication for instructions related to onboarding your company with Cheniere. For assistance email: CheniereGPPSupplierCompliance@cheniere.com.

If you have any questions, please don’t hesitate to contact Ziba Mehra, ziba.mehra@calpine.com or Stacy McGrath, stacy.mcgrath@calpine.com.

Sincerely,

DS

MA
